

IT'S BACK TO SCHOOL

Remember, bus stops are a busy chaotic place, especially the first days of school. If you bring your dog with you, please make sure you plan ahead to have the proper leash, and some treats to maintain control of the dog. It is best for your kids not to do big dramatic kisses and hugs goodbye to the dog before getting on the bus as that may cause anxiety for the dog. A calm gentle "see you soon" pet will keep your dog from worry about being away from his/her playmates now that school has started.
